Summary

Full Stack Developer with experience in building web applications and RESTful APIs using ASP.NET Core, C#, React.js, Node.js, SQL Server, and MongoDB. Skilled in developing responsive user interfaces, backend services, and database-driven applications with a focus on performance, reliability, and user experience. Experienced in API integration, troubleshooting, CI/CD pipelines, and DevOps practices. Strong problem-solving skills with a passion for learning new technologies and delivering high-quality solutions.

Experience

.Net Full Stack Developer, Wipro

09/2024 – Present | Hyderabad, India

Hands-on experience as a Full Stack Developer working across UI, backend, DevOps, and cloud environments, delivering scalable applications and supporting enterprise migration projects.

Project: Citi Bank | Full Stack Developer

Developed and maintained responsive web applications using React.js, HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js, and MongoDB.

- Contributed to TeamCity to Lightspeed Enterprise migration, including CI/CD pipeline migration, deployment automation, and workflow optimization.
- Built reusable React components, developed RESTful APIs using Node.js and Express.js, integrated frontend and backend services, and optimized application performance.
- Utilized MongoDB, GitHub, Bitbucket, and DevOps tools for database management, version control, release management, production support, and issue resolution.

Project: Entertainment App | Full Stack Developer

- Developed full-stack application using ASP.NET Core, C#, REST APIs, and SQL Server.
- Designed and implemented backend services, CRUD operations, API integrations, and database optimization for improved performance.
- Participated in development, testing, debugging, and deployment activities while ensuring application reliability.

Azure & Cloud Experience

- Worked with Azure Functions, Logic Apps, Durable Functions, and Blob Storage to build scalable cloud-based solutions.
- Automated workflows, integrated Azure services with backend APIs, and implemented notification and data-processing solutions.
- Configured and managed Azure App Services, Azure Storage Accounts, and Azure Key Vault to ensure secure and reliable application deployments.
- Monitored cloud resources using Azure Monitor and Application Insights, improving application performance, troubleshooting, and operational efficiency.

Skills

Frontend

Angular, React.js, TypeScript,
HTML5, CSS3

Backend

Node.js , Express.js , ASP.NET Core , C#

Databases

MongoDB , SQL, MySQL

Cloud & Platforms

Microsoft Azure , AWS , Linux

Architecture & APIs

Microservices , RESTful APIs

Tools & Others

Git GitHub (Version Control & CI/CD)
GitHub Copilot (GH-300) Visual Studio
Code Jira Postman

Languages

- English
- Hindi
- Telugu

AI-Assisted Full Stack Developer, Wipro

Hyderabad, India

- Used GitHub Copilot to write code faster for ASP.NET & Core, React.js, and Node.js applications.
- Created prompts to generate APIs, SQL queries, and frontend components.
- Used AI to fix bugs, improve code quality, and generate documentation.
- Used GitHub Copilot for code suggestions, debugging, and unit test creation.
- Worked with AI tools to improve development speed and productivity

Education

Bachelor of Science: Electronics And Communications Engineering,

Malla Reddy Institute of Engineering & Technology
04/2018 – 08/2022 | Hyderabad, TG

Certifications

- AWS Certified DevOps Engineer Professional (DOP-C02)
- Node.js Application Developer Certified
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure Developer Associate (AZ-204)
- GitHub Copilot (GH-300)
- Microsoft Certified: Azure Administrator Associate
